Build Your Business and Leadership Skills

Table: Business Engagement and the Information Security Professional (ISEP) is designed specifically to meet the mission of the information security (IS) community. ISEP will deliver new, often-unseen concepts and ideas that can be applied across all industries and sectors. The innovative, interactive design provides effective, fast-paced instruction and in-depth content.

Program Goals

With this program, you will learn and acquire professional leadership and management skills that will benefit your career, your organization, and your community. The program provides a structured learning environment and includes practical, measurable outcomes.

Program Tracks

There are tracks to choose from based on your interests, industry, and career goals. Each track includes a mix of training sessions, case studies, and hands-on exercises to help you develop the skills you need.

Program Faculty

Our faculty consists of industry leaders, experienced professionals, and subject matter experts who are dedicated to helping you achieve your goals.

Testimonials

"The program and faculty were excellent. I applied the skills gained during the program to improve my relationship with my business partners so that we can talk about more matters that they understand.

"The ISEP curriculum is spot-on in its delivery of effective leadership competencies in a corporate security environment."
— Danie Beaud, Information Security Manager, City"
